DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites the limitation "the hollow space" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Fahrig.

The Fahrig reference discloses a valve housing 1 having a through-channel (between inlet 2 and outlet 3), valve plates 12 and 14, a sealing ring 11, and a seal connection piece (screw in sealing ring 11). Regarding claim 2, see Figure 2. Regarding claim 3, see the hollow spaces which the valve stems 17 slide in. Regarding

claim 5, see the recesses on the plates 12 and 14 which coverings 13 fit into.

Regarding claim 6, the distance between the bases of the recesses is at least equal to the diameter of the through-channel in the fully open position of the valve.

Allowable Subject Matter

Claims 4 and 7-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1 and 3 have been considered but are moot in view of the new ground(s) of rejection.
